**Subject:** RE: Discuss: ADEQ Ag BMP, exemptions, and VOC and PM10 thresholds for nonattainment areas

Note that at the time, AgBMP only applied to crops. Local rules in Maricopa were subsequently updated to include animal feeding operations (including poultry) - but to date, the updated Maricopa Rules have not been submitted for SIP approval. Only crop rules are in the SIP. Pinal County has submitted updated crop and animal AgBMP rules.

For a plain language explanation, see the

"Guide to Agricultural PM10 Best Management Practices, Maricopa County, Arizona PM10 Nonattainment areas" - there's a link to it from this page (2<sup>nd</sup> paragraph)

Hi Everyone,

Would Thursday afternoon rather than Wednesday work for you? Here's a 114 letter from Region 5 that I'd like to use as a template for what I'm striving to work on for Hickman. I'll send more documents from Region 5 along as I've reviewed them.
